TITLE: Anti-atherosclerotic agents

Brief Summary Text (37):

The reason for most treatment of hyperlipidemia or hyperlipoproteinemia is for arresting, reversing or preventing atherosclerosis. In the past, attempts have been made to lower the levels of cholesterol, phospholipids, and triglycerides in the blood by the oral feeding of various substances which have been generally referred to in the art as hypolipidemic agents or hypocholesteremic adjuvants. Typical of such substances are lecithin, pectin, cottonseed oil, and the mucilaginous substances listed in U.S. Pat. No. 3,148,114. In addition, several synthetic hypolipidemic agents are now available, namely, clofibrate, D-thyroxine, cholestyramine, and nicotinic acid [Levy and Frederickson, Postgraduate Medicine 47, 130 (1970)]. Clofibrate has the undesirable side-effect of causing hypertrophy of the liver in some patients.

ABSTRACTED-PUB-NO: DE 3230103A

BASIC-ABSTRACT:

Agents contain, as a homogeneous mixt., phospholipids (esp. lecithin) and free fatty acids and/or fatty oils having a high content of polyunsatd. fatty acids (linoleic, linolenic, arachidonic), the polyunsatd. fatty acid content being at least 50% of the total fatty acid content.

Oral prophylaxis and treatment of lipid balance or lipid metabolism disorders caused by removal of lecithins from foods by e.g. purification processes, such as deposition of cholesterol in blood vessels, inadequate peripheral circulation, arteriosclerosis and hypertension.

ABSTRACTED-PUB-NO:

DE 3230103C

EQUIVALENT-ABSTRACTS:

Compsn. for use as an article of diet comprises a clear homogeneous mixt. contg. 10-40% phospholipids esp. lecithin, free fatty acids and/or oils, with at least 50% of the fatty acids polyunsatd.

Pref. the mixt. contains cotton seed oil, maize oil, sunflower oil, soya oil, thistle oil, walnut oil and flax oil esp linoleic; linolenic, and arachidonic acid, individually or mixed. The compsn. is also used to prepare margarine.

USE/ADVANTAGE - The mixt. is produced without the need to remove water. It can be taken orally without difficulty.

The required daily dose of essential phosphatides for the transport of cholesterol can be obtd. from 1-5g of the compsn.

(3pp)
